Analyses and Action Taken Report of Student Satisfaction Survey

A student satisfaction survey was conducted in the month of October 2023, which attracted responses from n=1558 students of Daulat Ram College at various levels of study. The survey had two broad domains: a) Teaching Learning Feedback and b) College Infrastructure.

Teaching Learning Feedback

More than 80% of the students rated satisfaction in domains of teacher evaluation pertaining to namely, teacher preparation, communication, teaching approach (including classroom illustrations), fairness in evaluation.

Approximately 70% of students reported average to above average satisfaction regarding completion of course on time, mentor-mentee engagement and opportunities for career growth, engagement in extra-curricular activities in the college.

One of the limitations in this domain was w.r.t use of ICT tools in classrooms. Only 50% students reported satisfactory use of ICT tools in classroom considering infrastructural limitations. Students in their respective comments emphasized the need of broader use of ICT assisted learning experience.

College Infrastructure:

- 80 to 90% of students were satisfied with the cleanliness, maintenance of classrooms and aspects like accessibility of the college premises for differently abled students.
- More than 60% students reported satisfaction with hygiene conditions of the toilets and washrooms.
- Close to 45% students reported average to average to below average satisfaction with the availability of clean drinking water in college.
- More than 85% students reported above average satisfaction with the security and proctorial services in the college.
- More than 75 % of students were satisfied with the state of availability of prescribed books and reading materials.

Limitations:

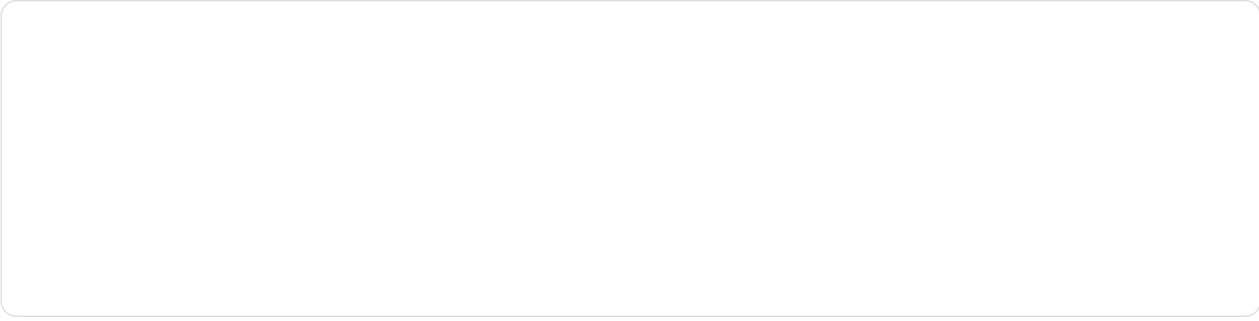

- Close to 80 % students reported average to below average satisfaction with the internet facility in the college premises.
- Close to 65 % students rated average to below average satisfaction with the sports facility in the college.
- Close to 45 % students reported below average satisfaction with the college canteen services.

Action Taken:

- The college is in process of construction of new building which shall help upgrade the installation of ICT infrastructure subsequently.
- Water purification system has been subjected to routine maintenance to help ensure continued availability of clean drinking water.
- The canteen services have been upgraded with indication of new vendor, centralized cooling system, initiation of Amul café, fresh fruit juice shop etc.

Everything is fine

It's good

Everything is good

Improve communication

More internships and programmes

Teachers are nice and we'll educated

Teachers should try to connect to students

Watercooler in physics department

We are not able to understand the method of study

More videos

More thorough ppts

better explanation

Teaching regular and communicate& conversation with students

Teachers should have knowledge about subject they should not just copy from books

Teachers should be more polite

Teachers should understand the way in which students can learn better rather than ignoring their needs

Ys

Overall teachers in my department are very helpful and add onto their relentless efforts , i highly appreciate their efforts and their compassion.

On a short note I would be highly greatfull if their would be more use of illustrative things for concept clearance rather than just rote learning.

Secondly if communication gap gets improve and students are able to connect their teachers in a more comfortable environment.

Thirdly it would be great if everything goes hand in hand and students are less in a state of confusion.

1 Teachers should discussion the individuals performance in class .

2 Teachers should talk about things other than syllabus .

3 There should not be any attendance restriction while attending other departments activity.

more organised classes, less handwritten assignments since they're time consuming and play no role in increasing our knowledge and can be easily done digitally, better/ more equipment in labs

Reduce compulsory attendance

Make extra curricular mandatory

Make club participation mandatory

Teachers should misguide students if they choose parallel course for their future example govt exam

They should understand pressure on students from family and thus should help and support students who are opting for coaching

1. Please ensure different subjects have their google classroom. We don't have any except for GE and SEC. Not even for core subjects. This way we face lot of trouble in finding the pdfs on whatsapp and study related material shared by teachers. Also the deadlines of assignment and tests are not told clearly. With Google classroom, we will be able keep a track of everything related to a particular subject whether study material, assignments, projects, activities and tests.

2. Please make an excel sheet at least if an app isn't possible for recording the attendance and it can be updated daily by respective subject teachers and we can have our official mail ids as only view option for the excel sheet so that we all can track a record our attendance in all classes. Right now its very difficult.

3. As winters have arrived, it's a humble request not only from me but also so many more students, to please change the morning timings for certain classes from 8 am to at least 8:30 as many of us have to travel 2 hours from metro and its very difficult for us to move at 5:45 and some aren't even able to eat breakfast in order to reach so early. Please make the morning timings of certain days a bit more suitable considering the students who travel from

different city.

Teachers should communicate with students.

Students should be overloaded with work load .

Teacher should not scold us for participating in other activities

Pl let children participate in extra curricular activities

There are as no internships provided for science students pl work on that area

Attendance marking to be done leniently

1) Teachers should encourage co-curricular activities and inform about internships or short term course.

2) Teachers should use board for teaching diagram based concepts.

1. Too much hectic day 8am to 5pm sometimes 5.20pm

2. Teachers force us to make beautiful files due to this we can't able to learn any new things.

3. Teachers demands different types of file due to which some of us can't able to afford it.

College should guide the freshers more about college and interns.

Overall teaching learning experience is quite good no suggestions from my sides

Teacher should practice once before teaching. Teacher should provide proper notes to reduce time wastage of students

Sometimes teacher's are not coordinated well..

Many times things are not easy for students as one teacher is saying something..other one wants something else

Projector should be used only for pictorial representation. 90% use of Blackboard or whiteboard should be there. Revision classes will also help.

Teacher's have to talk politely with students and also college stuff hav to talk politely with students

1. Use better graphic and visual media to engage student well

2. Try to reach every student and ask for their doubts

3. Make teaching a two way interaction

1) Teachers should explain the topic practically

1) Not only syllabus should be covered but its knowledge should be applied practically through research papers etc.

2) students are only encouraged to study to get good marks....the focus should instead be the betterment of knowledge.

3) Students do not have enough knowledge about internships, projects etc that they can take up in there field of study. Teachers should give more info to students about that.

Washroom cleanliness

Firstly I suggest that class timing should be change as it is 8 am in the morning which is very early for us ,I leave home 2:30 hours before the class was start and its too early and not even safe specially in winters ,and many student leave in pg/hostels and don't have their breakfast in the early classes as they collapse in between the classss

First of all there is more focus on theory not on practical knowledge.

Practical files should be stopped rather then writting it should be hands on more and more that will help more to learn.

And tell more about college to collect interships or student exchange program by professors to students, they didn't tell about these things as much as we need.

Better Professors .

4. Improved retention of information: Utilizing technology effectively, such as educational apps and online resources, helps students retain information through interactive and multimedia-based learning material

6. Accessible learning: Technology integration allows for flexible and remote learning options, making education more accessible to a wider range of students.

In the third year of our college the techers assigned to us in English were new teachers and it became very difficult for the whole class to work according to their ways because they were not aware of the process. Also our request was unheard

1. Understand the student's weakness instead of just judging them
2. Take regular class test after each unit. (Might be oral discussion)
3. Share the proper notes with students after the class

Teacher should be good in his behaviour and try to understand our problems

Good infrastructure , 3d classrooms , good teachers with nice communication skills

THERE AREN'T ANY SUCH THINGS WHICH ARE TO BE IMPROVED.

AND HONESTLY I DON'T HAVE ANY KIND OF PROBLEM WITH THE TEACHING STAFF!!

Teachers are required to be explain the concepts in more details....means to the best of their knowledge 😊

Inclusion of more electronic. Devices for the assignments

Method of teaching needs development

Load of assignments and internals should be least for third year students as they have to prepare for future entrance exams and all

Teacher's should teach not only to complete the syllabus but also to make students understand the topic well through example and applications

Teachers lack punctuality

Try to communicate with every student and dont teach the first bench only

1. More productive workshops
2. Field visits
3. Department collabs

1. The feedback should be taken for every teacher individually (can be easily created in google form). Not all teachers have the same teaching style, so this feedback is not truly reflective of the experience.

2. So much time everyday is wasted looking for classrooms. They should be duly allotted. Additionally, the professors should inform us in case classes are cancelled.

3. New teachers should be given proper training and put upto speed with the curriculum. At times, the CR is sending notes/readings/lectures instead of the professor.

Different mode of teaching should be used and practical sessions should be done rather than just theoretical sessions and infield applications must be taught

Thnku

1. I think more society needed in college some of the good society like finance and investment cell, 180 Dc , Marketing shutdown and society like enactus were not present in our college which is present almost in all the college of du
2. Infrastructure could be better as there is less number of classes and they are very small . We have to give our exam in auditorium
3. Timetable could be better as it starts from 8 till 5 . To study single subject for 4 hour is not worth it.
4. We have provided various courses in sec and vac but we are not learning anything practical from that teacher teach mostly theory for practical subject also. Teacher also lack subject expertise in subject like digital marketing and digital empowerment. They teach theory so I can't apply it practically.

It was fine but I expected a lot more especially because of the name that for that it is famous.

Teachers never tried to connect on a personal level and thus I was not able to share my career related queries.

Teachers should be more Humble, try to connect to with the students, give them advice.

Need proper mentor

Need help to get some sport facilities

Need some more classrooms to have the proper classess

Instead of slide method they should use chalk and board more often rather than reading slides only

They should focus on covering syllabus from the very start, during start of semester teachers as well as students get light and end up falling into the trap.

Use of projectors, practical experience

1. Clean washrooms will make a lot of difference to the whole college experience for girls. As it is a girls college, it is really disheartening to see how the basic necessities are even in such bad conditions and Clean drinking water facilities in form of water coolers will be appreciated. The current condition is not good for health of students.

2. I feel that the departments should be more inclusive for programme students as well like I am a programme students but we Don't see much inclusion in various activities and areas. That creates a division and insecurities among students.

3. We were assigned a mentor when our college started but I don't remember the time when they talked to me or counseled me personally so I'd want to say that just making changes and policies on paper won't help, execution is the key.

4. College trips should happen to give students lifelong memories and bonding .

Teachers are really nice but the college infrastructure is poor.

Sports ground , there is no such court for any game

Teacher need to be fair always they supposed to give fair chances to everyone not only on the basis of theri attendance but also on the basis of their capabilities. (it happened with me that is why I'm raising this issue)

1) The time table is very inconvenient for the students, it has an average of 3 hours of break between classes regularly. If the students are going to spend their whole day in college attending classes there is barely any time left for other activities that could be done by students in the mean time if the time table was efficient.

2) Some of the teachers are really good at teaching but some other teachers are not at all imparting knowledge into students. What they do is give a monologue and leave the class. And we have to sit in that class just for the sake of attendance- it leads to wastage of a lot of time which could have been used in some other thing in a better way.

3) In SEC class of Advanced spreadsheet tools, first of all we weren't alloted a room with projector let alone a computer lab as if the teacher will draw the excel on blackboard. And when she arranged a room with projector it turns off after every half n hour which is very inconvenient and leads to wastage of time.

New technology monthly updates can be given

Better graphics and visual media to engage students well

Clarify students expectations

Practical mode of teaching should be used and in field application must be taught.

The teacher should provide fair marks in IA .

Teachers can improve the way they teach . And the administration should allot us teachers at the earliest as we didn't have a teacher for a core paper for quite sometime.

1. Teachers should provide us with some study materials

Like for subjects Vac, Sec, Ge

They say that no material is available

I have very practical classes like Advanced spreadsheet

If due to an emergency I miss a class the topic remain unexplained to me...

They are all rushing behind the syllabus

They want that majority of students understand rather than every student..

We do not have doubt sessions and revisions....

Teachers should teach with the help of ppts and projector videos so that concept should be thoroughly understood

First of all, the timetable should be improvised. The classes are till 5:20. I come from a far off place. So it takes me 2-3 hours to reach home due to traffic as well as late departure. So I reach at 8 or 9 P.M. When do I even study ? When do I do other activities ? What am I suppose to do ? This is seriously frustrating. And I'm getting very tired these days. I need some rest. This is the only problem that I've till now. Please take immediate measures. Reduce the hours please principal ma'am.

Teachers' Satisfaction/Feedback Analysis and Summary 2022-23

A total of 144 teachers provided feedback for the year 2022-2023. These faculty members were from diverse disciplines, ranging from humanities, commerce, and sciences.

Around 83% of teachers stated that college encourages participatory decision making by involving employees at various levels. Nearly 90% agreed that the college encourages faculty members to participate in designing and developing the course curriculum at university level. An overwhelming majority (more than 95%) stated that college facilitates academic flexibility, adoption of innovative pedagogies, and a vibrant research environment with focus on capacity building programmes. Around 90% teachers also agreed that the college provides ample opportunities for research and training, to foster academic growth. More than 90% of teachers also stated that the college has a rich library and repository of academic resources, along with a fair and transparent system of procurement of books/equipment/software etc.

More than two thirds of the faculty were satisfied with the college infrastructure, and general cleanliness of campus.

Editing and Publishing workshop by Department of English had a Talk on Academic Writing by Dr. Swetha Antony which helped me improve my academic acumen and widen my horizons on how to approach any text.

Overall improvement & development of Library

Our College provides adequate opportunities and support to faculty for their academic and research growth through seminar/workshop

Mentor mentee groups

Easy access to e journals

One month faculty induction programme held in March in collaboration with GAD TLC

1. ICT tools training for students, faculty and non teaching 2.vidya vistaar scheme 3.Nav dhara project for faculties

College has initiated Navdhara Projects for Research purposes facility

Faculty Development Program in collaboration of GAD TLC SGTB Khalsa College

College administration is very helpful in clearing paper work and granting permission for availing the opportunities available in the academic environment .

The faculty development program initiated by the college helped me in understanding various aspects of the profession.

The ICT SDP provides great knowledge to students coming from diverse programs

some faculty members are intentionally not taking classes and important theory papers are divided among teachers even for a single paper.

Increased library hours have contributed towards this end.

Provide academic leave for participation in conferences

Mentor mentee

Made me the member of Prospectus Committee and the member of English Department for Pramilla Magazine

Organising FDP on ICT tools for in-house Faculty

Attended workshops at iit mandi on cognition.

Initiative to introduce new facilities in Library : electronic Access to many new journals.

The activity period

The library has good range of books facilitating array of reading materials in various disciplines

In house faculty training program, DELNET Resources and Services, One-Month Online National Faculty Induction Programme/Orientation Course jointly organized by Daulat Ram College, University of Delhi and Guru Angad Dev Teaching Learning

College supports for inviting from academia

Initiation of different schemes or funding for research project

Mentor - mentee initiative

The Conference Hall of the College, built a few years back, serves as a congenial venue for conducting various academic activities

College organised FDP program which helps improvement in my academic profile.

Vidya Vistar Scheme

Navdhara project initiative by the college to fund small budget reservh proposal is commendable. It has given teachers and undergradauate student opportunities to do readerch in the college. This will enhance the academic profile of teachers as well as students.

Introduce webinar on Modern methods for academic tools and teaching.

Additions in library

Research opportunities

Introduce more skills based curriculum.

Skill Development Program arranged by the Department

Mentor-mentee meeting in which we get a chance to talk to the students and find out what they do not understand.

Maintaining the recycling unit

Encourages research

The college encourages undertaking new initiatives for better teaching learning experience.

Timely interviews for permanent post.

The various SDP initiated by IQAC has improved the learning skills,we can impart good scientific practices to the students.

Navdhara project scheme

N.A

Hostel Facility

Navdhara Project Scheme

The college provided support to setup the Drosophila Resource centre of our department where me and Dr. Madhu are currently working on Drosophila.

Joined recently. So right now nothing.

Gender Audit

Research projects such as Delhi University Innovation Project and Navdhara Research Projects and internships

Conduct of seminars, conferences, and FDPs for capacity building.

Duty leave for FDPs, Conferences

College provides duty leave

There is open access to all the relevant journals.

None

DRC as a Cluster Nodal Hub

Organization of fdp

I was granted out of station leave during summer break to complete my PhD work.

Navdhara projects are implemented in the college to initiate research

College has introduced 'Navdhara projects'

The institutional head is always supportive and encourages participation in any essential academic or reserach based programmes.

Convenient provision of duty leaves for academic growth

Nothing specific

Navdhara projects

Teaching new papers

Vedic Mathematics course started in College

...

The initiative to have workshops in ICT has facilitated integrated teaching-learning process which has contributed in improving our academic ability

supporting new course introduction

Skill development program have given the opportunity to know students specific approach and to synchronise with the present needs of teaching learning

Various FDPs

WiFi availability in the staffroom

No

Availability of Library Resources

Introduction of reseach projects Navdhara

Development of zebrafish and drosophila facility

Library has provided access to worldwide data base of books and journals through N-List and other resources

Not applicable

There should be a central instrumentation facility and basic research funding to all the research oriented faculty.

Infrastructure which is under process

Grievance cell can be further strengthend and expanded.

The number of toilets needs to be increased.

—

Supportive research environment and better infrastructure

Our college has provided us tremendous opportunities for growth and I wish to continue to give new ideas and aid in the growth and development of our institution.

Better sanitation, perhaps privatization of cleaning to a reputed agency. The students need to be trained in responsible use of amenities too.

Stronger Wifi Connectivity.

Arrange for projectors in each classroom can be done. Also, internet connectivity can be improved.

College should consider providing the following facilities: More research oriented courses, easily accessible instruments for smooth conduct of research, duty leaves and financial support for attending conferences, central instruments facility for science research

For each paper there should be equal teacher/student ratio as per UGC guide lines for smooth conduction of practical classes. If is difficult for a teacher to attend conferences/ seminars so more teaching hands are required for smooth cond

Not yet

I am Satisfied to College Administration and Academic and Extracurricular Environment. Our College Strictly Follow the New Education Policy 2020.. Thank you Very Much and Proud to be apart of it.

Career counsellors and psychiatrists can be kept for ensuring a good mental health of students. Canteen can have better quality and more nutritious food. Research Cell can be created for both students and faculty members with active participation to improve research acumen.

Drinking water facility and Toilets are insufficient needs to be improved and upgraded

Frequent interactions with students and teachers are considered as the helpful technique to understand their needs. I think, available online resources (Study materials prepared by concerned teacher) at college website can help to maintain transparency in the education system. Thus We can keep up the college reputation.

Rooms should be more. hence new building should be constructed quickly.

Toilets should be clean for hygiene purpose

Many Resource Centre for Entrepreneurship can be open eg. Hydroponics, Mushroom Cultivation etc. Basic amenities like washrooms, infrastructure can be improved.

Upgradation of IT infrastructure and a dedicated departmental space.

Our college is on the positive side for all the parameters mentioned in the questionnaire.

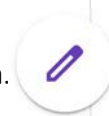

Curriculum development at the university level should involve more feedback from college teachers.

More autonomy to structure the classroom curriculum might provide leverage to include students from diverse backgrounds

Cleanliness of toilet, Canteen food price and quality & price of photostat shop, teachers must be given free hand to tackle with students for their career related tasks.

Cleanliness can be improved

In class furniture, podiums are highly required plus a Girls common room, automation of library system, recording room for teachers in order to promote ICT adoption and research.

NA

No specific suggestions because whenever we have suggested anything to our Principal, she has taken a conscious decision and agreed, if our suggestion is valuable for the college premises

1. Furnitures need to be maintained and proper lighting should be there in classes especially in the small rooms with less capacity. 2. Locker facility for all the teachers should be provided. 3. There should be a provision for the teachers to carry the issued books in library for reading purpose.

Following the introduction of NEP curriculum, apart from introducing more aspects on experiential learning everything else seems to be conducive for students

The cleanliness of the college especially the washrooms and classrooms, installation of smart board and projector in more rooms. The new desks are already broken, replacing them with good quality furniture

Teacher's amenities needs improvement. The staff room doesn't have enough seating capacity and the adjoining toilet is too small. The canteen could also have a separate seating room for teachers where they can have lunch.

More Talks and Lectures series can be initiated on awareness and significance of Research acumen

Research Environment

Significant improvement needed in cleanliness and maintenance of classrooms and washrooms

Procurement of books in college library should be increased as per requirement of faculty and students.

My suggestion is to provide study materials develop by teaching faculty on the website of the College so that students can access these materials from the College website.

NIL

Provide Students common rooms, class room etc

There is a need to improve the infrastructure of the college.

We should have at least 4 caretakers in the college or plumbing, electrician and masonry work should be outsourced

More panel discussions with students and experts should take place

The infrastructure especially in terms of IT resources needs to be looked into.

We need good seating arrangements for the facilities to work properly. Facilities need better facilities of sanitary clean toilets etc. we really need to work together better canteen facility as we spend long hours in college.

The strength of students are more and the chairs are less, so we should have good infrastructure too,

Would like college to provide a lab space that is required to carry out wet lab research

No

Departmental Rooms

scope of improvement in Infrastructure

College should provide equal opportunity to all interested in research.

Cleanliness

Infrastructure; Accounting staff is not approachable

Need to work towards improvement of infrastructure like portable white boards, projectors in classrooms, etc

The administrative staff should be more helpful towards faculty members.

There is a scope to extend infrastructure by establishing new building and porta cabin

There is scope to extend the infrastructure in form of new building n labs

Infrastructure needs to be urgently improved. ICT enabled classrooms, furniture, lab facilities are the immediate necessity.

The college needs infrastructural improvement.

Improvement in infrastructure

...

We need to invest in improving the infrastructure facilities

none

Toilet needs more sanitation. Even staff rooms toilet ls are not upto the marks sometimes.

Proper tables in the staffroom for us to sit and work with enough plug points. The Teacher Study Room is very limited and the internet is slow. Projectors should be available in the rooms and connecting cables and other technical needs for running the projectors should be easily accessible to the teachers. More sensitisation on cleanliness should be made mandatory for the staff and students.

.

Despite of lack of complete infrastructure college is functioning smoothly because all the teaching and non teaching staff take their responsibilities very seriously. It is a pleasure to work here and together we will make the environment as conducive as possible. Thank you

--

Internet accessibility and availability of laptops for students is less which makes teaching of computer based papers challenging.

Proper cleaning, lighting in corridors, proper utilisation of college resources are few things that can be improved.

ICT facilities should be increased for the faculty

Male Washroom, Clean Washroom, Department wise Meeting Room

Mans toilet,Class room cleans

शिक्षक और विद्यार्थियों के मध्य अधिगम क्षमता को बढ़ाने के उन्हें संस्थान द्वारा और भी शैक्षिक सामग्री और संस्थागत ढांचे में विनिवेश किया जा सकता है।

Better reading space for teachers, travelling grants for attending conferences and workshops.

छात्राओं के लिए एक कॉमन रूम होना बहुत जरूरी है।

Infrastructure needed for growing demand

Financial support should be given to Faculties and students for attending for attending Conferences and seminars at National and International level

Dearth of Infrastructure and cleanliness

We need better infrastructure and more research labs

ICT infrastructure in the college has scope of improvement, library should have computer facility for students where they can utilise e- resources

More classroom room for teaching

Better internet facility

Not for now. I believe the limitations are because of lack of space/classrooms. Once the new building is ready, i am sure the limitations will be resolved.

I do not strongly disagree anywhere

Departmental libraries and resource rooms should be strengthened

1)There is dire need of both classrooms and furniture so the construction of new building should be completed on priority basis. 2) Toilets are not sufficient for around 200 faculty members, more than 100 non teaching and around 4000 students. 3)Grievance redressal system does not exist as the grievances are pending in the college for more than a decade also.

n/a

Teacher student ratio should be according to ugc guidelines and should be followed for each paper

ICT enabled room (with audio video facility) for group activities, educational games, movie screening etc which could be pre-booked by teachers as per requirement

-

Provide more computer labs for SEC to provide students with practical

Classrooms should be adequate, clean and well maintained.
