EVENT SUMMARY:

Mathshot came back with full force, stronger than ever, under Shooन्य 25: The Annual Mathematics Fest. As soon as the clock hit 12, the Conference Hall bubbled over with excitement, with students looking forward to the ultimate photography competition with a twist.

As anticipated, participants from different colleges of different years took part in this competition. The competition required the participants to understand the depth and the beauty of nature and how effortlessly beautiful it has been made including science and mathematics. It also helped the participants, audience and judges to look upon our surroundings with a mathematical mindset and explain how mathematics is embedded in everything that surrounds us. They took mind blowing pictures for the competition and explained the mathematical concept behind them in a very well-mannered way. Our judges were highly impressed by their skills and it was difficult for them to choose our three winners. The winners were as follows:
