BRIEF INFORMATION ABOUT THE ACTIVITY

TOPIC/SUBJECT OF THE ACTIVITY	Speaker session titled “ How do Macroeconomists Build A Model”? Implications for Monetary Policy and Employment
OBJECTIVES	To understand the dynamics of macroeconomic model building and the analysis how it contributes to the monetary policy in real economies.
METHODOLOGY	This report is based on direct observation of the speaker session and the documents collected during the event.
INVITED SPEAKERS WITH AFFILIATION DETAILS (if any)	Prof. Chetan Ghate, Professor, Indian Statistical Institute, Delhi and Member of the Economic Advisory Council to the Prime Minister.
OUTCOMES	Prof. Ghate gave everyone new insights on the theoretical framework of model building and macroeconomic policy making. The lecture stimulated the minds of the students as well as the faculty members who attended the lecture.

	Everyone found the session to be intellectually stimulating, deeply enriching, and motivating.

Hope you got excited: great area to be in
- Indian Macro

- A field of study that uses modern quantitative structural models to study economic growth and fluctuations in India, and macroeconomic policy in this context.
- What is the role of central banks and the government in promoting growth or 'fighting recessions'?
- We need to confront macroeconomic models and mechanisms with data.
