As the Chairman of this esteemed institution, it is my utmost pleasure and honor to address this brilliant gathering of students, teachers, and administrative staff on the occasion of its 62nd annual day. The college offers a harmonious blend of tradition and modernity in its approach to education. With state-of-the-art facilities and a nurturing environment, the college fosters a strong sense of unity and dedication. It provides a comprehensive learning experience, complemented by a wide range of co-curricular and extra-curricular activities, ensuring the holistic development of our students. The various departments, societies, centers, and cells empower students to enhance their skills and make informed choices for a successful future. I encourage you all to seize the countless opportunities for self-improvement and contribute to the betterment of society that this vibrant institution offers.

Success in life comes to those who maximize their potential, and the college is here to support you in your endeavors. Cultivate your skills, acquire new knowledge, and embrace a sustainable and ethical way of life, as it will bring out the best in you. Make the most of the available facilities while maintaining a healthy balance between academics and co-curricular activities. Each student should reflect upon their existing habits and identify the ones that are crucial for a successful and fulfilling life. It is essential to create a daily plan and adhere to it with perseverance and diligence. Transform your life into a steed that you ride upon, rather than allowing life to ride upon you! Our current education system should empower us to be the riders, not the horses.

I assure you of my unwavering support for the college's progressive and welfare-oriented initiatives. Last but not the least, I once again like to congratulate the principal, teachers, students and administrative staff to show the indomitable spirit in smooth functioning of the college.

Stay healthy, stay safe!

## INTERNAL QUALITY ASSURANCE CELL (IQAC)

The Internal Quality Assurance Cell (IQAC) of Daulat Ram College works with the vision and mission of upgrading and maintaining the quality of holistic development of students. It aims to improve the quality of teaching, co- curricular and extra-curricular activities of the college. To achieve this goal, it makes an academic calendar at the beginning of the academic session to schedule the academic teaching, examinations and the various types of activities which students can plan to participate in, throughout the year.

These activities include the Skill Development Programs (SDPs) which are designed to impart additional professional skills for building competency, cultural sensitization, and diversity integration among the students. These are scheduled during the vacations so that students can attend them. Besides this, students also learn through various workshops, conferences, seminars, talks and panel discussions which are organized by the college during the academic year.

The college has also introduced several add-on programmes for enhancing holistic development of the student. These programmes aim to improve knowledge, skill and personality development of the students. The add-on courses also earn revenue for the college.

One of the add-on courses that has culminated into opening a centre in the college is on legal literacy for bringing about awareness in the subject. The college holds a certificate course on the same. Another add- on course that has been highly beneficial to the students is on "Data Analytics Using Python."

The college has entered an academic collaboration under the Vidya-vistar scheme, with Government College, Choutan and Government Girls College, Magra Punjala, Jodhpur, Rajasthan. The partnership aims to facilitate sharing of resources and expertise amongst the partnering institutions to enhance the academic capital of the students and faculty.

The college has invited proposals from its faculty to undertake multi/interdisciplinary research projects. These projects propose to involve the college students as well for further enhancing their learning experiences.

Mentor-mentee scheme was also introduced in this academic session wherein, each teacher mentors 21 students from each class. It was suggested to hold two meetings every month. This scheme has already kick- started and various issues ranging from academics, to career, alongside mental health related issues are being taken up.

Other than introducing and maintaining these activities, IQAC also assures imparting of quality education by assuring holding classes as per the academic curriculum, being surveillant about proper internal assessment for the students and having Semester exams as per the University requirements.

Glimpses from Drosophila Resource Centre

Drosophila Resource Centre was set up in Department of Biochemistry in 2012. The centre was funded by DBT Star College Project. It aims to teach the basic principles of genetics using *Drosophila* as the model system. Almost 350 students have been trained since its inception. Students of different life science streams such as Botany, Biochemistry, Life Sciences and Zoology from DU and Punjab University have been trained at the centre. The students have been immensely benefited by this training which is reflected in their selection and pursual of higher education in genetics from prestigious places. A lab manual on 'Rediscovering Genetics' has been published in 2016 that covers the range of experiments performed by the students at the centre. This lab manual has been included as part of suggested readings in syllabus of Delhi University, AIIMS and Gandhi Institute of technology and management. The centre also provides stocks and support to many colleges of Delhi University, AIIMS and Sanatan Dharm (P.G.) college, Muzaffarnagar, MDU. Students get hands-on training on preparation of fly food, culturing and maintenance of flies, male-female differentiation, identification of mutants, performing crosses to analyse principles of genetics and many more. ## Recycling Unit

**Convenor:** Prof. Sarita Nanda

The unit looks after collection, segregation and recycling of institutional waste like leaf litter, waste assignments, waste cardboard packaging materials and waste plastic bottles. The unit contains machinery to cut leaf litter into small sizes and composting bins to compost them. The compost is made with essential microbes within 3-4 weeks. The mature compost can be then used as fertilizer. It is also equipped with paper recycling machineries like pulp makers, univat, hydraulic presses, and calendaring machines. This helps us to make white recycled paper and the waste cardboard is used to make brown paper. The recycled products are converted into useful resources like biocomposts, carry bags, folders, decorative plates, and paintings. We have recently added an aerobin to compost the green canteen waste. It can convert the peels of fruits and vegetables to manure in 40 days. It also maintains a small herbal garden to propagate medicinal and air-purifying plants. It employs two workers and gives hands-on workshops on the recycling process. These products are sold in the market, and the earnings are used to improve recycling activities. The unit also gives the DRC students to do an internship and earn a certificate. During this internship, the students can attend the skill development workshop, which helps them learn recycling activities and develop the best way out of waste. The unit is also being used as a laboratory where the compost-making is optimized by two Ph.D. students as part of their research work.

This year the greatest number of our cadets were selected and wholeheartedly participated in Prime Minister's Rally. Another accomplishment for us this year has been that 9 of our cadets received awards from DGNCC.

Our year started with Buland'23 held on April 27, 2023 on the theme "Sports", It was a unique

festival highlighting the importance of fitness in life. The event was graced by Group Commander Delhi Directorate, Brigadier Devasheesh Chowdhury. He delivered a motivating speech that inspired everyone present. Special Guest was Miss Baljeet Kaur, the only Indian mountaineer to scale four 8000 m peaks in less than a month. She shared her personal experiences and motivated the cadets to never give up. We witnessed a footfall of around 600 cadets from Delhi and outside during the festival.

Nagar. The drive commenced at dawn as cadets cleaned the River Sahibi. Cadets also raised awareness through posters and recitations of quotes related to cleanliness and the environment.

To amplify the voices advocating for environmental preservation, NCC DRC, under the guidance of 1DGBN (Delhi Girls Battalion NCC), performed a street play (nukkad natak) at Kashmere Gate on 5<sup>th</sup> June, to convey a message regarding cleanliness.

Our cadets took the initiative to commemorate International Yoga Day on 21<sup>st</sup> June. They participated enthusiastically in the event organized by Akhil Bhartiya Yoga Shikshak Mahasangh at Coronation Park.

On 28<sup>th</sup> June during Prime Minister's visit for the valedictory function of centenary celebrations of Delhi University, NCC was an integral part of our college stall displaying its achievements in full swing.

Cadets also had the opportunity to witness the live flag-hoisting ceremony at the Red Fort,

which was conducted by the Honorable Prime Minister of our country in the presence of several dignitaries and citizens on 15<sup>th</sup> August. Along with this, flag hoisting and guard of honor was performed in the college campus by the cadets.

To highlight the International year of Millets, cadets were enlightened on the Importance of Indian Millets in a webinar by Dr. Pooja Jain, NHE department of our college. Later, a debate competition was organized on the topic "Millets: Beneficial, but not Necessarily a Miracle Food." The competition witnessed thoughtful arguments and explanations among the cadets. On the same day on 17<sup>th</sup> June, cadets made food from millets at their home and brought it for competition; including awareness about how healthy millets are for health.

To educate the cadets on the G20 Summit, on 16<sup>th</sup> July, NCC DRC organized a seminar on "G20: One Earth, One Family, One Future" by Dr. Shivali Aggarwal, Political Science Department of our college. The event featured an informative session on the establishment and development of various societal areas worldwide.

The Unit is actively engaged in undertaking social welfare initiatives.

Rooted in the conviction that selfless acts contribute to personal fulfilment, our volunteers diligently strive to uplift the less fortunate, ensuring they receive support to enhance their quality of life and dignity. The Unit feels honored and privileged for having the constant support and encouragement of our respected Principal ma'am, Prof. Savita Roy and Convenor, Dr. Sharda Gautam.
