Environment Policy

The environment policy aims to make a clean, green, zero waste, plastic-free, sustainable campus by promoting green initiatives. It also strives to encourage and educate students and staff of the college to follow best practices aligned with the sustainable development goal of the United Nations.

Objectives

Clean Campus Initiatives

- Maintain a clean campus
- Smoke-free campus
- Segregation of waste
- Organise Cleanliness drive
- Maintaining clean washrooms
- Provide clean drinking water

Green Campus Initiatives

- Develop and maintain the green area of the campus
- Maintain plant nursery
- Cultivation and maintenance of medicinal plants
- Mapping of the trees and shrubs
- Spread awareness on importance of plants

Water Harvesting and Conservation

Rain Water Harvesting

Wastewater conservation

Sewage water recycling

Zero Waste and Plastic-Free Campus

Discourage the use of Single-Plastic

Recycling of solid waste on campus

E-waste collection and disposal

Paper waste collection and recycling on and off campus

Clean Energy Generation and Conservation

Generation of Solar Energy

Promote the use of Clean, Green Energy Source

Energy Conservation

Environment, Green and Energy audit

Spread awareness about energy conservation

Discourage energy waste

Institutional Practices Promoting Environment Sustainability

Spread awareness of environment-sustainable goals

Promote the Swachh Bharat Campaign. Promote paperless communications and transactions on campus.

Off-Campus Initiatives to promote and maintain environmental sustainability

Promote research and innovation in environmental sustainability

Clean Campus Initiatives:

These initiatives should ensure cleanliness on campus to maintain a healthy environment.

Maintain a clean campus: Routine cleanliness of the academic blocks, sports ground and other areas of the college supervised. Cleanliness rosters will be displayed and updated.

Zero tolerance policy on Smoking/Substance and alcohol usage inside the campus.

Segregation of degradable and non-degradable waste will be encouraged through bins.

Providing dedicated area and equipment for segregation of waste.

Students and staff will be oriented to follow the segregation of waste

MoUs with NGOs dealing with the carriage of segregated waste for off-campus recycling should be maintained and updated.

Organise routine Cleanliness drives in various premises of the college and around the college with the active participation of the students, teachers and non-teaching staff

Provide clean drinking water by installing and maintaining Water Purification Systems and cooling systems.

Maintaining clean washrooms by providing a continuous water supply and supervising the cleanliness by the sanitary personnel.

Ensuring disposal of soiled sanitary napkins by installations and maintenance of Incinerators in the washrooms.

Green Campus Initiatives

Develop and maintain the green area of the campus: 33% of the campus is maintained under green cover. It houses 500 trees with 100 varieties of plants. These are mapped and labelled. The college is committed to maintaining this green property. Additionally, finances, resources and skilled staff should be provided to nurture them.

Maintain plant nursery: To ensure a steady supply of plants, we should nurture and maintain the plant nursery on campus

Cultivation and maintenance of medicinal plants:

Mapping of the trees and shrubs to spread awareness about the plants.

Ensure sustainability of soil by regular supplementation with organic composts and monitor soil health regularly.

Maintaining kitchen garden to get healthy organic produce for hostel mess.

Clean Energy Generation and Conservation

Generation of Solar Energy by installation of solar panels on rooftops of academic, hostel and residential blocks.

Promote the use of clean, green energy sources like the use of PNG in canteen and mess.

Energy conservation by using LED bulbs, energy-efficient appliances and maintaining computers at low power mode.

Discourage energy waste and save energy by switching off lights and fans when not required.

Environment, green and energy audits should be conducted annually.

Spread awareness about energy conservation amongst students and staff.

Water Harvesting and Conservation

Replenishment and recharge of groundwater Rain Water Harvesting.

R wastewater and AC wastewater to be recycled.

Sewage water should be recycling.

Overflow and leakage of tanks, taps, flush and pipes should be regularly checked and maintained.

Ensure minimal use of water by constructing water-efficient toilets.

Institutional Practices Promoting Environment Sustainability

Spread awareness of environment-sustainable goals through workshops, conferences and webinars.

Promote the Swatch Bharat campaign at least once a year.

Promote paperless communications and transactions on campus.

Off-Campus Initiatives to promote and maintain environmental sustainability.

Promote research and innovation on environmental sustainability.
